

(6 players: two DSP and four consumers)

Scenario 2:

Jim is sitting in the van with two other consumers and Staff 1 in the Target parking lot. Jim has told Staff 1 that he wanted to go into the store where Staff 2 and consumer Sandy had gone.

Staff 1 told Jim to stay in the van with him and the other consumers.

Jim said that he would run out into the street if he could not go into the store.

Staff 1 told Jim to stay in the van.

Jim said no, and began to open the door. Staff 1 reached back and held the door shut.

As staff pulled on the door to keep it closed, Jim pushed against the door.

Then Jim used his Left hand to push the staff's shoulder, while opening the window with his Right hand.

Staff 1 then grabbed Jim's Left hand. Jim grabbed Staff 1's purse and threw it out the window. Then he jumped out of the van and began to holler and jump around. Then he slapped the side of the van with his hand and kicked the back tire.

Just then, Staff 2 and consumer Sandy walk out of Target and hear Jim yelling. Staff 2 hurries over to the van and sees the purse on the ground and Jim kicking the tires of the van and hitting the sides of the doors with an open palm as he runs around the van while yelling loudly about unfairness and nobody caring.
